- Business Intelligence & Strategic Insights
- Digital Transformation Initiatives
- SQL & Database Management (PostgreSQL)
- API Development & Integration (REST APIs)
- Data Streaming & Event-Driven Architecture (Apache Kafka)
- ETL / Data Pipelines
- Digital Transformation Initiatives
- Team Leadership & Cross-Departmental Coordination

PROFESSIONAL SKILLS DEMONSTRATED

Great Cairo Water Company
2020 – Present
Data & Digital Transformation Specialist
Responsible for data management, reporting systems development, dashboard creation, and supporting digital transformation initiatives across multiple departments. Leading data-driven decision support and process automation efforts**.**

- **Business Intelligence & Dashboard Development:** Designed and implemented executive dashboards using Apache Superset and Power BI to support decision-makers across departments, improving visibility of KPIs and operational performance.
- **SQL & Data Management:** Developed complex SQL queries and structured reporting datasets to generate automated daily reports used organization wide.
- **Reporting Automation:** Built and deployed automated reporting systems adopted by employees for daily operations, reducing manual processing and improving data accuracy.
- **Data Documentation & Governance:** Created full documentation for departmental databases, enhancing data organization, clarity, and long-term maintainability.
- **Digital Transformation Initiatives:** Contributed to internal process automation systems and digital workflow improvements aligned with organizational transformation goals.
- **Leadership & Team Management:** Promoted to Team Leader, supervising a technical support team, coordinating cross-departmental data requests, and ensuring timely issue resolution.

VOLUNTEERISM

Cairo Water Company – Executive Data & Digital Transformation Trainer (2023 – Present)

- Delivered executive-level training sessions to sector directors, branch managers, and the company chairman on dashboard utilization and KPI interpretation, supporting data-driven decision-making across 25+ branches and departments.
- Led structured training programs for 300+ employees on newly implemented digital transformation systems, accelerating enterprise-wide system adoption and improving operational workflow efficiency.
- Conducted quarterly executive workshops presenting statistical performance reports and operational status across branches and sectors, enabling leadership to evaluate trends, identify gaps, and support strategic planning decisions.

RELEVANT PROJECTS

Digital Transformation Dashboard Implementation – 2024 | Role: Lead Data & BI Specialist

Impact & Skills: Designed and implemented dashboards using Apache Superset for executive decision-makers across 25+ branches. Improved KPI monitoring, enabled data-driven decisions, and reduced reporting preparation time by 40%.

Daily Complaints & Reports Dashboard – 2025 | Role: Lead Data & BI Specialist

Impact & Skills:

- Built a dashboard to track daily complaints and reports
- Generated monthly and yearly reports for branches and executives (Heads of Departments & CEO)
- Enabled faster decision-making and monitoring

Monthly Branch Visits Dashboard – 2025 | Role: Lead Data & BI Specialist

Impact & Skills:

- Designed a dashboard to simplify tracking of monthly branch visits
- Allowed managers to review visit data directly on the dashboard
- Improved transparency and efficiency of branch monitoring

Vehicle Maintenance Management Dashboard – 2026 | Role: Lead Data & BI Specialist

Impact & Skills:

- Developed a dashboard to manage vehicle maintenance activities
- Tracked workshop operations and spare parts usage
- Streamlined maintenance monitoring for all company vehicles

Fuel Management Database – 2026 | Role: Data & BI Specialist

Impact & Skills:

- Built a new database to manage company fuel operations
- Improved tracking and reporting of fuel consumption and allocations

EDUCATION

Bachelor of Commerce –Information Systems (IS**) – Helwan University, Egypt** (2023 – Present)
Current GPA: Excellent

Higher Institute of Management & Information Systems, Egypt (2021 – 2023)

COURSES & CERTIFICATIONS

ICDL

International Certification | March 2023

Database Fundamentals

MaharaTech – ITIMooca | May 2024

PostgreSQL Database – Bootcamp (Beginner to Advanced)

Udemy | March – May 2024

Data Analysis Specialist – Digital Egypt Initiative

Ministry of Communications & IT (MCIT) | June – Dec 2025

Currently enrolled. Covers: Excel, SQL, Python, Tableau, Power BI, and advanced data analysis tools
